“This system of technical development, comprising eighty-six studies on two models, will save an enormous amount of the student’s time and labor. By its use it will be found unnecessary to learn, as is the usual custom, an étude or composition for each new technical exercise, because practically every technical problem is anticipated, and the time thus saved can be spent in the study of actual music.

OLD AND MODERN MASTER VIOLINS

OLD MASTERS

The collector, dilettante, virtuoso, teacher, student—and also the person who would endow a college or institution with a particularly fine specimen—will all find the Gemünder Catalogue of Old Violins of particular interest.

The prices range from below \$50.00 for a finely made, well played-in violin—as opposed to the kind that are “played out”—on up into the thousands for specimens of great rarity and tonal-beauty.

Ask for catalogue No. 3. If you will state your desires clearly, we will be happy to go to any length to assure you complete satisfaction, no matter at what distance you may reside from New York.

MODERN MASTERS

Those whose means limit them to hundreds rather than thousands of dollars, and also those who, having tested both, are assured that the Modern Master Violin is the peer of the Old Master Violin, will find their tonal-ideal as well as price-satisfaction in the catalogue of “Gemünder Art” Violins. The greater virtuosi of the world have appraised “Gemünder Art” Violins tonally, and these appraisals are printed in this catalogue. And they show clearly that for modern halls of even largest size, the Modern Master “Gemünder Art” Violins have sufficient power, and to spare, while being sufficiently “sweet” and mellow even in their first year to vie with Old Master Violins of great age and fabulous price. Send for Catalogue No. 2.

COMMERCIAL GRADES

Catalogue No. 1 and Miscellaneous Folders are of interest to teachers, heads of institutional music schools and the like, and depict instruments and outfits at \$10.00 upwards.

Strings, trimmings, cases, and incidentals of every variety in all grades, from the artist's favorite quality brands to the most moderate priced.

Any one or all of these catalogues mailed postpaid on request.

SCHIRMER'S LIBRARY of MUSICAL CLASSICS

COMPREHENSIVE

Its marvellous scope has created for Schirmer's Library a universal demand. As the edition stands today it represents the best of the entire literature of classical music for the voice, piano, and violin. In it the teacher will find valuable pedagogical material, in many instances not available in any other form. The abundance of recreational material includes Selections from the Operas, "Albums" containing the works of individual composers, also miscellaneous collections of various composers, especially as illustrating some single school or nation. In the twenty-five years of its existence Schirmer's Library has expanded to over twelve hundred volumes but others are constantly being added to still further augment its interest and usefulness.

AUTHORITATIVE

Accuracy in editing is the fundamental feature of Schirmer's Library. The accrued knowledge and experience of years are continually drawn upon for its greater perfection in regard to phrasing, fingering, etc. Indeed, the editorial roster of Schirmer's Library is one of rare distinction, including only those amply qualified to preserve the gifts of genius in fullest measure.

PROGRESSIVE

Schirmer's Library has always been identified with the best in engraving, printing, and binding. In line with this attention to mechanical perfection the publishers of Schirmer's Library were the first in the field to appreciate the advantage of the new **Offset Process** as applied to music printing. This method permits the use of a dull finish paper so desirable from both an artistic and physical point of view. The eye-strain caused by the glare from shiny paper is quite done away with. As rapidly as possible the entire Library is being brought out in this improved fashion.

INEXPENSIVE

Adhering to the original purpose of furnishing the best inexpensive edition of the musical classics, the popular prices as first established have been maintained even in instances where the publishing cost has been greatly increased.

With a few exceptions the volumes are of uniform size, 9 x 12 inches. Many are to be had in handsome cloth bindings. Fine leather bindings to order.

KEYBOARD HARMONY and TRANSPOSITION

By

ANNA HEUERMANN HAMILTON

an original, vital, inspiring method of teaching harmony founded on the principle:

TO EXPERIENCE IS TO KNOW

This new presentation of Classic Harmony answers the long, insistent, urgent demand of all educators for a means of incorporating a living, working knowledge of Harmony into the daily music experience of the pupil.

This Empirical Harmony is the exact antithesis of the outworn Theoretical Harmony. Knowledge of chords involves Constructive work in chords based upon classic example. Each volume establishes understanding thru explanations that are

PRAGMATIC IN THEIR PRACTICALITY

CRYSTALLINE IN THEIR CLEARNESS

ALL-ENCOMPASSING IN THEIR SCOPE

Preliminary Studies in Keyboard Harmony and Transposition \$.40

For the Earliest Grades (No previous knowledge necessary)

A simple ingenious explanation of degrees, intervals, major and minor scales, elements of fundamental harmony and transposition based on key consciousness with reference to Preparing the pupil for the more serious study of harmony.

Keyboard Harmony and Transposition. Volume I \$.40

Vol. I includes Principal Triads, Principal Dissonant Chords, Secondary Triads, Passing Notes.

The work in this volume aims to secure ease and familiarity in all keys, direct relationship of harmonic knowledge to music—involving analysis—and furnishes practical cadence drill, and many clever suggestive teaching devices.

Keyboard Harmony and Transposition. Volume II \$.40

Vol. II treats of Suspensions, Anticipations, Modulation, Altered Chords, Organ Point.

Volume II offers clear succinct explanations of many of the harmonic problems which usually remain hazy and unsolved in the ordinary music experience.

Subjected to the drill in this volume these difficulties give way to a disciplined, growing scholarship designed to pave the way to original modulation.

These books are equally well adapted to class or private lessons—piano and organ.

A RIGHT START MEANS A GOOD FINISH

This involves striking just the correct balance between the old which has *staying power* and the new which has *inciting force*.

We believe that these very qualities are to be found in the material for beginners listed below.

The Very First Lessons at the Piano. By Mrs. Crosby Adams \$.75

Little melodies with and without words—preparatory to the Graded Studies—designed to interest the little beginner, and awaken eye, ear and mind to a right and musically perception of the elements of music.

Graded Studies for the Piano. Compiled by Mrs. Crosby Adams. Grades I-V in seven volumes each \$1.00

A COMPLETE THESAURUS OF TEACHING MATERIAL

A collection rich in variety of material and teaching suggestiveness. Comprising everything necessary to a many-sided music development. It is unusual to find in such compact convenient form technical exercises, chord studies, etudes, duets, song accompaniments, and recreation pieces in addition to study hints, pedal directions and lists of supplementary pieces.

Piano Technic for Children. By Lulia Lois Caruthers \$2.00

A series of finger plays combining Mother Goose rhymes and rhythmic drills that make an interesting appeal to the child imagination and at the same time give the necessary technical drill essential to ultimate artistic playing.
